## **GEOLOGIC INVESTIGATIONS ALONG A PROPOSED NORTHERN BORDER PIPELINE, NORTH DAKOTA. NO DATE.**

NO-11955	Expandable envelope with five folders:
----------	--

- Folder 1. Draft copy, with editorial comments, of an unpublished 21-page report entitled "Lignite deposits in North Dakota along the proposed route of the Northern Border Pipeline". No author credit, but the report appears to have been written by C.S. Venable Barclay. Circa 1974.
- Folder 2. Stratigraphic section diagram showing thickness of lignite beds in the Tongue River, Sentinel Butte, and Golden Valley Formations of the Fort Union Group.
- Folder 3. Annotated copy of USGS Miscellaneous Field Studies Map MF-590, "Stripping coal deposits of the northern Great Plains, Montana, Wyoming, North Dakota, and South Dakota". 1974.
- Folder 4. Group of miscellaneous notes and diagrams related to stratigraphy and nomenclature of rock units in North Dakota.
- Folder 5. Annotated copy of USGS 1:500,000-scale topographic map of North Dakota, 1963 edition.
